Re: Resurface Interstate 75  
MOT-75-0000, PID 101123

Dear Sir or Madam:

The Ohio Department of Transportation (ODOT) has proposed a project to resurface Interstate 75 from the southern Montgomery County line to the State Route 725 interchange. The project is necessary to maintain the roadway. Construction is currently scheduled to occur in Summer/Fall 2019 and is expected to require one month to construct. Traffic on the interstate will be maintained. Ramp detours of one to two weeks each may be required; signed detours will be provided.

As a service provider, we wish to inform you regarding this project. We welcome your questions and comments regarding the necessary detour. Comments are requested by April 13, 2018, to ensure your comments may be considered in the project development.

Questions or comments? Please contact me
